

# EDUCATION AND CARE FIRST AID PLUS

ST JOHN  
AMBULANCE  
AUSTRALIA INC.  
TOID 88041

This course is specifically designed to meet the needs of educators and support staff working within an education and care setting, who are required to respond to a first aid emergency including asthmatic and anaphylactic emergencies. This course is a nationally recognised unit that describes the skills and knowledge required to provide a first aid response to infants, children and adults.

It covers child-specific first aid in many high-risk areas such as anaphylaxis and asthma, as well as common injuries and resuscitation.

This course has been approved by the Australian Children's Education and Care Quality Authority and also satisfies all requirements for first aid, anaphylaxis management, and emergency asthma training under the Education and Care Service National Law and the Education and Care Services National Regulations (2011).

## COURSE DURATION

St John offers the following 2 options:

1. 2 days. This is best suited to people who are new to first aid or where English is a second language.
2. 1 day. Students complete an e-learning module and one day face-to-face of practice and assessment. This course is for those who are confident in their skills and are experienced first aiders and people who complete their training regularly.

## CERTIFICATE

On successful completion of this course you will be issued a statement of attainment in:

- HLTAID001 Provide cardiopulmonary resuscitation
- HLTAID002 Provide basic emergency life support
- HLTAID003 Provide first aid
- HLTAID004 Provide an emergency first aid response in an education and care setting
- 22300VIC Course in First Aid Management of Anaphylaxis
- 22282VIC Course in the Management of Asthma Risks and Emergencies in the Workplace

St John recommends, as per the *First Aid in the Workplace Code of Practice* and the Australian Resuscitation Council guidelines, that first aid skills are renewed every 3 years, and anaphylaxis and resuscitation skills (HLTAID001) are renewed every 12 months.

## ASSESSMENT METHODS

A successful outcome for this statement of attainment will be determined by a range of different methods including written assessment, observation of simulated and practical activities etc. You will be required to demonstrate CPR on a manikin on the floor.

### COURSE OUTLINE
