St John NT

# Public Access Defibrillator (PAD) Program

Help us to be everywhere you need us to be

Each year over 30,000 Australians will suffer from sudden cardiac arrest. Unfortunately, fewer than 10% survive, often because help cannot reach them in time. For every minute a person waits for defibrillation, the chance of survival decreases by 10%.

Register your defibrillator with the St John NT First Responder App and Triple Zero (000) to ensure that it can be easily accessed in the event of an emergency.

Business Name	<input type="text"/>
Business Street Address	<input type="text"/>
Latitude/Longitude	<input type="text"/>
Hours of Defibrillator Availability	<input type="text"/>
Contact person/position	<input type="text"/>
