

Occupational First Aid

Do you work with heavy machinery or in a high-risk work environment? A higher first aid qualification may be required to ensure your staff and employees are protected against potential dangers.

This course equips students for emergencies in a high-risk work environment and provides the skills necessary to be responsible for a first aid room.

PRE-REQUISITE UNIT:

Participants are required to undertake or present evidence for **HLTAID011** Provide First Aid prior to commencing **HLTAID015** Provide advanced resuscitation and oxygen therapy.

COURSE DURATION:

St John offers the following option:

- 4 days face to face workshop: This is full face to face course and participants are required to attend all 4 days. Those participants who have completed **HLTAID011** Provide First Aid in last three (3) years may be entitled to an exemption from the first two day.

CERTIFICATE

On successful completion of this course you will be issued a statement of attainment in:

- **HLTAID009** Provide cardiopulmonary resuscitation
- **HLTAID010** Provide basic emergency life support
- **HLTAID011** Provide First Aid
- **HLTAID014** Provide Advanced First Aid
- **HLTAID015** Provide advanced resuscitation and oxygen therapy
- **HLTAID016** Manage first aid services and resources

St John recommends, as per the First Aid in the Workplace Code of Practice and the Australian Resuscitation Council guidelines, that first aid skills are renewed every 3 years and resuscitation skills (**HLTAID009/HLTAID0015**) are renewed every 12 months.

COURSE OUTLINE:

This course covers the following:

- Resuscitation including using a soft bag resuscitator
- Oxygen therapy and application of an AED, including equipment maintenance
- Clinical assessment in detail
- Basic anatomy of all body systems
- Triage
- Risk assessment
- Managing all aspects of a First Aid Room
- Documentation
- Management of: Eye injuries, lifting and moving of a casualty, head, neck and spinal injuries including collars and spine board
- Casualties who are emotionally disturbed and under the influence of drugs and alcohol
- Post incident management
- First aid in the context of the workplace
- Relevant First Aid legislation
- Planning a response to a major incident
- Evaluating provision of First Aid

ASSESSMENT METHODS:

A successful outcome for this statement of attainment will be determined by a range of different methods including written assessment, observation of simulated and practical activities etc.

You will be required to demonstrate CPR on a manikin on the floor.
